CLASSIFICATION

Medical Device Class IIA

Classification according to Annex IX, paragraph III, rule 9 of European Directive 93/42/EEC and subsequent amendments (including Directive 2007/47/EC)

MANUFACTURER

INDICATIONS FOR USE/INSTRUCTION FOR USE

Used for relieving pain caused by injuries, scrapes, falls or sprains, and in cases requiring cryotherapy and application of cold. Thanks to its anaesthetic effect induced by cold on the injured area, sports activities can be resumed quickly.

Shake before use. Spray product on the affected area from a distance of at least 20 cm for 3-4 seconds. Repeat application if necessary. The mechanical anaesthesia induced by cold eliminates pain temporarily.

Store at room temperature, away from heat, open flames or sparks.

Keep away from sunlight and do not expose to temperatures exceeding 50°C/122°F.
